### JOB DESCRIPTION

**Conductors**, under supervision, are responsible for the safe, timely and proper operation of MTA New York City Transit's trains in customer, yard and work train service. In customer service, they open and close doors, make proper announcements to customers and set up the automatic announcement system. While in road service, they interact with the Train Operator, Supervision and the Control Center, when necessary. They provide flagging protection service duties, such as setting up flags and light signals and take other required measures for the protection of workers performing work on or near trainways. They work as platform conductors in the stations; patrol platforms; assist customers in safely entering and exiting trains, and assist in the timely dispatch of trains from key stations. They operate hand-thrown switches in the yards; make reports of unusual occurrences; and perform related work.

Some of the physical activities performed by Conductors and environmental conditions experienced are: walking along subway tracks; stepping over rails (including live third rails); ascending and descending from trains and catwalks to roadbeds; responding to audible signals such as alarm bells, train whistles, horns and radio conversations; responding to visual signals including distinguishing colored lights; using manual equipment related to train operation; remaining in a standing position for extended periods of time; lifting heavy equipment; and working outdoors in all weather conditions.
